

2018 ACM/IEEE 1st International Workshop on Security Awareness from Design to Deployment **SEAD 2018**

Table of Contents

| | |
|--|-----|
| Message from the ICSE 2018 General Chair | vii |
| Message from the SEAD 2018 Chairs | x |
| Program Committee for SEAD 2018 | xi |
| ICSE 2018 Sponsors and Supporters | xii |

Keynote

| | |
|--|---|
| Continuously Integrating Security | 1 |
| <i>Laurie Williams (North Carolina State University)</i> | |

Session 1

| | |
|--|----|
| Software Security Vulnerabilities: Baselineing and Benchmarking | 3 |
| <i>Pete Rotella (Cisco Systems)</i> | |
| Risk-Based Design Security Analysis | 11 |
| <i>Laurens Sion (KU Leuven), Koen Yskout (KU Leuven), Dimitri Van Landuyt (KU Leuven), and Wouter Joosen (KU Leuven)</i> | |
| Understanding the Relationship between Quality and Security: A Large-Scale Analysis of Android Applications | 19 |
| <i>Anthony Peruma (Rochester Institute of Technology) and Daniel Krutz (Rochester Institute of Technology)</i> | |

Session 2

| | |
|--|----|
| An Investigation of Security Conversations in Stack Overflow: Perceptions of Security and Community Involvement | 26 |
| <i>Tamara Lopez (The Open University), Thein T. Tun (The Open University), Arosha Bandara (The Open University), Mark Levine (University of Exeter), Bashar Nuseibeh (The Open University & University of Limerick), and Helen Sharp (The Open University)</i> | |

| | |
|---|----|
| I've Seen This Before: Sharing Cyber-Physical Incident Knowledge | 33 |
| <i>Faeq Alrimawi (Lero-The Irish Software Research Centre), Liliana Pasquale (University College Dublin and Lero), Deepak Mehta (United Technologies Research Centre), and Bashar Nuseibeh (The Open University and Lero)</i> | |
| Safe Cryptography for All: Toward Visual Metaphor Driven Cryptography Building Blocks | 41 |
| <i>Dirk van der Linden (University of Bristol), Awais Rashid (University of Bristol), Emma Williams (University of Bristol), and Bogdan Warinschi (University of Bristol)</i> | |

Session 3

| | |
|---|-----------|
| Security Patterns 2.0: Toward Security Patterns Based on Security Building Blocks | 45 |
| <i>Alexander van den Berghe (imec-DistriNet), Koen Yskout (imec-DistriNet), and Wouter Joosen (imec-DistriNet)</i> | |
| DLR Secure Software Engineering | 49 |
| <i>Rohan Krishnamurthy (German Aerospace Center), Michael Meinel (German Aerospace Center), Carina Haupt (German Aerospace Center), Andreas Schreiber (German Aerospace Center), and Patrick Mader (Technical University Ilmenau)</i> | |
| Providing an Experiential Cybersecurity Learning Experience through Mobile Security Labs | 51 |
| <i>Anthony Peruma (Rochester Institute of Technology), Samuel Malachowsky (Rochester Institute of Technology), and Daniel Krutz (Rochester Institute of Technology)</i> | |
| Author Index | 55 |
