

# 2018 ACM/IEEE 40th International Conference on Software Engineering: Companion Proceedings **ICSE-Companion 2018**

## Table of Contents

Message from the General Chair .....	xxvii
Message from the 50 Years of Software Engineering Chairs .....	xxx
Message from the Demonstrations Chairs .....	xxxii
Demonstrations Program Committee .....	xxxii
Message from the Poster Track Chairs .....	xxxv
Posters Program Committee .....	xxxvi
Message from the Doctoral Symposium Chairs .....	xxxvii
Doctoral Symposium Program Committee .....	xxxviii
Message from the ACM Student Research Competition Chairs .....	xl
ACM Student Research Competition Program Committee .....	xli
Message from the Technical Briefings Chairs .....	xliv
Technical Briefings Program Committee .....	xliv
Message from the Workshop Chairs .....	xlvi
Workshops Program Committee .....	xlvi
Message from the Industry Forum Chairs .....	xliv
Message from the New Faculty Chairs .....	li
Message from the SCORE Chairs .....	lii
SCORE Program Committee .....	liii
Message from the Co-located Events Chair .....	lv
Message from the Remaining Chairs .....	lvi
ICSE 2018 Organizing Committee .....	lix
ICSE 2018 Sponsors and Supporters .....	lxiii

## Demonstrations

## Mining Repositories

Perceval: Software Project Data at Your Will .....	1
<i>Santiago Dueñas (Bitergia), Valerio Cosentino (Bitergia), Gregorio Robles (Universidad Rey Juan Carlos), and Jesus M. Gonzalez-Barahona (Universidad Rey Juan Carlos)</i>	
StackInTheFlow: Behavior-Driven Recommendation System for Stack Overflow Posts .....	5
<i>Chase Greco (Virginia Commonwealth University), Tyler Haden (Virginia Commonwealth University), and Kostadin Damevski (Virginia Commonwealth University)</i>	

SATD Detector: A Text-Mining-Based Self-Admitted Technical Debt Detection Tool .....	9
<i>Zhongxin Liu (Zhejiang University), Qiao Huang (Zhejiang University), Xin Xia (Monash University), Emad Shihab (Concordia University), David Lo (Singapore Management University), and Shanping Li (Zhejiang University)</i>	

## Test Automation and Failure Diagnosis

Aletheia: A Failure Diagnosis Toolchain .....	13
<i>Mojdeh Golagha (Technical University of Munich), Abu Mohammed Raisuddin (Technical University of Munich), Lennart Mittag (Technical University of Munich), Dominik Hellhake (Technical University of Munich), and Alexander Pretschner (Technical University of Munich)</i>	
When the Testing Gets Tough, the Tough Get ElasTest .....	17
<i>Antonia Bertolino (CNR-ISTI), Antonello Calabró (CNR-ISTI), Guglielmo De Angelis (CNR-IASI), Micael Gallego (Universidad Rey Juan Carlos), Boní García (Universidad Rey Juan Carlos), and Francisco Gortázar (Universidad Rey Juan Carlos)</i>	
SUSHI: A Test Generator for Programs with Complex Structured Inputs .....	21
<i>Pietro Braione (University of Milano-Bicocca), Giovanni Denaro (University of Milano-Bicocca), Andrea Mattavelli (Imperial College London), and Mauro Pezzè (University of Milano-Bicocca and Università della Svizzera italiana (USI))</i>	

## Mutation Testing

An Extensible, Regular-Expression-Based Tool for Multi-language Mutant Generation .....	25
<i>Alex Groce (Northern Arizona University), Josie Holmes (Northern Arizona University), Darko Marinov (University of Illinois at Urbana-Champaign), August Shi (University of Illinois at Urbana-Champaign), and Lingming Zhang (The University of Texas at Dallas)</i>	
MuAlloy: A Mutation Testing Framework for Alloy .....	29
<i>Kaiyuan Wang (University of Texas at Austin), Allison Sullivan (University of Texas at Austin), and Sarfraz Khurshid (University of Texas at Austin)</i>	
MDroid+: A Mutation Testing Framework for Android .....	33
<i>Kevin Moran (College of William &amp; Mary), Michele Tufano (College of William &amp; Mary), Carlos Bernal-Cárdenas (College of William &amp; Mary), Mario Linares-Vásquez (Universidad de los Andes), Gabriele Bavota (Università della Svizzera Italiana), Christopher Vendome (College of William &amp; Mary), Massimiliano Di Penta (University of Sannio), and Denys Poshyvanyk (College of William &amp; Mary)</i>	

## Performance and NFR

The Palladio-Bench for Modeling and Simulating Software Architectures .....	37
<i>Robert Heinrich (Karlsruhe Institute of Technology), Dominik Werle (Karlsruhe Institute of Technology), Heiko Klare (Karlsruhe Institute of Technology), Ralf Reussner (Karlsruhe Institute of Technology), Max Kramer (Karlsruhe Institute of Technology), Steffen Becker (University of Stuttgart), Jens Happe (avenyou GmbH), Heiko Koziol (ABB Corporate Research), and Klaus Krogmann (LogMeIn)</i>	
PerformanceHat – Augmenting Source Code with Runtime Performance Traces in the IDE .....	41
<i>Jürgen Cito (University of Zurich), Philipp Leitner (Chalmers University of Gothenburg), Christian Bosshard (ergon Informatik AG), Markus Knecht (University of Zurich), Genc Mazlami (zühlke Engineering), and Harald C. Gall (University of Zurich)</i>	
PROMOpedi: A Web-Content Management-Based Encyclopedia of Software Property Models .....	45
<i>Séverine Sentilles (Mälardalen University), Federico Ciccozzi (Mälardalen University), and Efi Papatheocharous (RISE SICS)</i>	

## Evolution

GuideGen - A Tool for Keeping Requirements and Acceptance Tests Aligned .....	49
<i>Sofija Hotomski (University of Zurich) and Martin Glinz (University of Zurich)</i>	
EVA: A Tool for Visualizing Software Architectural Evolution .....	53
<i>Daye Nam (University of Southern California), Youn Kyu Lee (University of Southern California), and Nenad Medvidovic (University of Southern California)</i>	
CSlicerCloud: A Web-Based Semantic History Slicing Framework .....	57
<i>Yi Li (University of Toronto), Chenguang Zhu (The University of Texas at Austin), Julia Rubin (The University of British Columbia), and Marsha Chechik (University of Toronto)</i>	

## Testing Vulnerabilities

SAFL: Increasing and Accelerating Testing Coverage with Symbolic Execution and Guided Fuzzing .....	61
<i>Mingzhe Wang (Tsinghua University), Jie Liang (Tsinghua University), Yuanliang Chen (Tsinghua University), Yu Jiang (Tsinghua University), Xun Jiao (University of California San Diego), Han Liu (Tsinghua University), Xi Bin Zhao (National Engineering Research Center for Enterprise informatization), and Jianguang Sun (Tsinghua University)</i>	
ReGuard: Finding Reentrancy Bugs in Smart Contracts .....	65
<i>Chao Liu (Peking University), Han Liu (Tsinghua University), Zhao Cao (Chieftin Lab), Zhong Chen (Peking University), Bangdao Chen (Chieftin Lab), and Bill Roscoe (Chieftin Lab)</i>	
Weak-Assert: A Weakness-Oriented Assertion Recommendation Toolkit for Program Analysis .....	69
<i>Cong Wang (Tsinghua University), Yu Jiang (Tsinghua University), Xibin Zhao (Tsinghua University), Xiaoyu Song (Department of Electrical and Computer Engineering), Ming Gu (Tsinghua University), and Jianguang Sun (Tsinghua University)</i>	

## SPLs and OO Repair

KernelHaven – An Experimentation Workbench for Analyzing Software Product Lines .....	73
<i>Christian Kröher (University of Hildesheim), Sascha El-Sharkawy (University of Hildesheim), and Klaus Schmid (University of Hildesheim)</i>	
Elixir: An Automated Repair Tool for Java Programs .....	77
<i>Ripon Saha (Fujitsu Laboratories of America), Hiroaki Yoshida (Fujitsu Laboratories of America), Mukul Prasad (Fujitsu Laboratories of America), Susumu Tokumoto (Fujitsu Laboratories Ltd.), Kuniharu Takayama (Fujitsu Laboratories Ltd.), and Isao Nanba (Fujitsu Laboratories Ltd.)</i>	
Multi-view Editing of Software Product Lines with PEOPL .....	81
<i>Mukelabai Mukelabai (Chalmers and University of Gothenburg), Benjamin Behringer (htw saar), Moritz Fey (htw saar), Jochen Palz (htw saar), Jacob Krüger (Harz University and University of Magdeburg), and Thorsten Berger (Chalmers and University of Gothenburg Sweden)</i>	

## Static Analysis

AnATLyzer: An Advanced IDE for ATL Model Transformations .....	85
<i>Jesús Sánchez Cuadrado (Universidad de Murcia), Esther Guerra (Universidad Autónoma de Madrid), and Juan de Lara (Universidad Autónoma de Madrid)</i>	
VisuFlow: A Debugging Environment for Static Analyses .....	89
<i>Lisa Nguyen Quang Do (Fraunhofer IEM), Stefan Krüger (Paderborn University), Patrick Hill (Paderborn University), Karim Ali (University of Alberta), and Eric Bodden (Paderborn University &amp; Fraunhofer IEM)</i>	
SQLInspect: A Static Analyzer to Inspect Database Usage in Java Applications .....	93
<i>Csaba Nagy (University of Namur) and Anthony Cleve (University of Namur)</i>	

## Model-Driven Development

MDebugger: A Model-Level Debugger for UML-RT .....	97
<i>Mojtaba Bagherzadeh (Queen's University), Nicolas Hili (Queen's University), David Seekatz (Queen's University), and Juergen Dingel (Queen's University)</i>	
CyPhEF: A Model-Driven Engineering Framework for Self-Adaptive Cyber-Physical Systems .....	101
<i>Mirko D'Angelo (Linnaeus University), Annalisa Napolitano (IMT School for Advanced Studies), and Mauro Caporuscio (Linnaeus University)</i>	
ReVision: A Tool for History-Based Model Repair Recommendations .....	105
<i>Manuel Ohrndorf (University of Siegen), Christopher Pietsch (University of Siegen), Udo Kelter (University of Siegen), and Timo Kehrer (Humboldt-University of Berlin)</i>	

## Verification

COMB: Computing Relevant Program Behaviors .....	109
<i>Benjamin Holland (Iowa State University), Payas Awadhutkar (Iowa State University), Suresh Kotharti (Iowa State University), Ahmed Tamrawi (EnSoft Corp), and Jon Mathews (EnSoft Corp)</i>	
The Gamma Statechart Composition Framework: Design, Verification and Code Generation for Component-Based Reactive Systems .....	113
<i>Vince Molnár (Fault Tolerant Systems Research Group), Bence Graics (Fault Tolerant Systems Research Group), András Vörös (Fault Tolerant Systems Research Group), István Majzik (Fault Tolerant Systems Research Group), and Dániel Varró (Fault Tolerant Systems Research Group)</i>	
A Regression Proof Selection Tool For Coq .....	117
<i>Ahmet Celik (The University of Texas at Austin), Karl Palmskog (University of Illinois at Urbana-Champaign), and Milos Gligoric (The University of Texas at Austin)</i>	

## Posters

Poster: Industrie 4.0 Virtual Automation Bus .....	121
<i>Thomas Kuhn (Fraunhofer Institute IESE), Pablo Oliveira Antonino de Assis (Fraunhofer Institute IESE), Markus Damm (Fraunhofer Institute IESE), Andreas Morgenstern (Fraunhofer Institute IESE), Dirk Schulz (ABB Corporate Research Center Germany), Constantin Ziesche (Robert Bosch GmbH), and Thorsten Müller (SMS group GmbH)</i>	
Poster: An Empirical Study of the Product Owner Role in Scrum .....	123
<i>Julian Bass (University of Salford), Sarah Beecham (Lero - the Irish Software Engineering Research Centre), Mohammad Abdur Razzak (Lero-the Irish Software Research Centre), Clodagh Nic Canna (Ocuco Ltd), and John Noll (University of East London)</i>	
Poster: Reengineering Legacy Systems for Supporting SOA: A Case Study on the Brazilian's Secretary of State for Taxation .....	125
<i>Yan de Lima Justino (Federal University of Rio Grande do Norte) and Carlos Eduardo da Silva (Federal University of Rio Grande do Norte)</i>	
Poster: Results from Multi-faceted Software Reliability Assessment Studies .....	127
<i>Yaping Luo (Altran Netherlands B.V.) and Egbert Touw (Altran Netherlands B.V.)</i>	
Poster: An Initial Characterization of Bug-Injecting Development Sessions .....	129
<i>Irina Diana Coman (The Most Serene Republic), Alberto Sillitti (Innopolis University), and Giancarlo Succi (Innopolis University)</i>	
Poster: Challenges with Automotive Test Case Specifications .....	131
<i>Juhnke Katharina (Daimler AG), Tichy Matthias (Ulm University), and Frank Houdek (Daimler AG)</i>	

Poster: Understanding the Role of Reporting in Work Item Tracking Systems for Software Development: An Industrial Case Study .....	133
<i>Pavneet Singh Kochhar (Singapore Management University), Stanislaw Swierc (Microsoft), Trevor Carnahan (Microsoft), Hitesh Sajani (Microsoft), and Meiyappan Nagappan (University of Waterloo)</i>	
Poster: When Students Meet Developers: Are Barcamps a Format for Interactive Software Engineering Education? .....	135
<i>Bianca Bergande (Neu-Ulm University of Applied Sciences) and Philipp Brune (Neu-Ulm University of Applied Sciences)</i>	
Poster: A Methodology to Teaching Statistical Process Control for Software Engineers .....	137
<i>Julio Furtado (Federal University of Pará - Brazil) and Sandro Oliveira (Federal University of Pará - Brazil)</i>	
Poster: A Matrix for Analyzing Projects in Software Engineering Courses .....	139
<i>Jakeline Marcos-Abed (Tecnológico de Monterrey.)</i>	
Poster: Continuous Inspection in the Classroom: Improving Students' Programming Quality with Social Coding Methods .....	141
<i>Yao Lu (National University of Defense Technology), Xinjun Mao (National University of Defense Technology), Tao Wang (National University of Defense Technology), Gang Yin (National University of Defense Technology), Zude Li (Central South University), and Huaimin Wang (National University of Defense Technology)</i>	
Poster: Startup Software Development Education: A Systematic Mapping Study .....	143
<i>Rafael Chanin (PUCRS), Afonso Sales (PUCRS), Leandro Pompermaier (PUCRS), and Rafael Prikladnicki (PUCRS)</i>	
Poster: Analyzing the Transactive Memory in Teaching Software Engineering .....	145
<i>Styliani Kleanthous (University of Cyprus) and Georgia Kapitsaki (University of Cyprus)</i>	
Poster: Improving Formation of Student Teams: A Clustering Approach .....	147
<i>Shoaib Akbar (University of North Carolina Charlotte), Edward Gehringer (North Carolina State University), and Zhewei Hu (North Carolina State University)</i>	
Poster: Are Our Students Engaged in Their Studies? Professional Engagement vs. Study Engagement .....	149
<i>Arnon Sturm (Ben Gurion University of the Negev) and Timothy C. Lethbridge (University of Ottawa)</i>	
Poster: Multidisciplinary Skill Assessment for Embedded Software Development Education via a Robot Contest .....	151
<i>Harumi Watanabe (Tokai University), Mikiko Sato (Tokai University), Masafumi Miwa (Tokushima University), Makoto Imamura (Tokai University), Shintaro Hosoai (Change Vision), Nobuhiko Ogura (Tokyo City University), Hiroyuki Nakamura (Kyushu University), and Kenji Hisazumi (Kyushu University)</i>	
Poster: PBL Planner Toolkit: A Canvas-Based Tool for Planning PBL in Software Engineering Education .....	153
<i>Gustavo Alexandre (CESAR School) and Simone Santos (CIn-UFPE)</i>	
Poster: Challenge-Based Learning: A Brazilian Case Study .....	155
<i>Alan Santos (PUCRS), Afonso Sales (PUCRS), Paulo Fernandes (PUCRS), and Josiane Kroll (University of Manitoba)</i>	

Poster: A Conceptual Model for Cooperative Thinking .....	157
<i>Daniel Russo (DISI), Marcello Missiroli (DISI), and Paolo Ciancarini (DISI)</i>	
Poster: Situation-Based E-Learning in Software Engineering .....	159
<i>Wilhelm Koop (University of Duisburg-Essen), Tobias Brückmann (CampusLab GmbH), Marian Benner-Wickner (CampusLab GmbH), Markus Kleinschmidt (CampusLab GmbH), and Volker Gruhn (University of Duisburg-Essen)</i>	
Poster: A Multi-year Analysis of Students' Build Errors in Agile Software Development Educational Projects .....	161
<i>Erina Makihara (Nara Institute of Science and Technology), Hiroshi Igaki (Osaka Institute of Technology), Norihiro Yoshida (Nagoya University), Kenji Fujiwara (National Institute of Technology), Naoki Kawashima (Nara Institute of Science and Technology), and Hajimu Iida (Nara Institute of Science and Technology)</i>	
Poster: Deciding Weak Monitorability for Runtime Verification .....	163
<i>Zhe Chen (Nanjing University of Aeronautics and Astronautics), Yifan Wu (Nanjing University of Aeronautics and Astronautics), Ou Wei (Nanjing University of Aeronautics and Astronautics), and Bin Sheng (Nanjing University of Aeronautics and Astronautics)</i>	
Poster: LWE: LDA Refined Word Embeddings for Duplicate Bug Report Detection .....	165
<i>Amar Budhiraja (Microsoft), Raghu Reddy (IIIT-Hyderabad), and Manish Shrivastava (IIIT-Hyderabad)</i>	
Poster: Inferring API Elements Relevant to an English Query .....	167
<i>Thanh Nguyen (Iowa State University) and Tien Nguyen (The University of Texas at Dallas)</i>	
Poster: A Study of Monitoring Crosscutting Concerns Implementation .....	169
<i>Grigoreta-Sofia Cojocar (Babes-Bolyai University) and Adriana-Mihaela Guran (Babes-Bolyai University)</i>	
Poster: Duplicate Finder Toolkit .....	171
<i>Dmitry Luciv (Saint Petersburg State University and LANIT-TERCOM LLC), Dmitrij Koznov (Saint Petersburg State University), George Chernishev (Saint Petersburg State University), Hamid Abdul Basit (Lahore University of Management Sciences), Konstantin Romanovsky (Saint Petersburg State University), and Andrey Terekhov (Saint Petersburg State University)</i>	
Poster: Toward the Development of Richer Properties for Recommender Systems .....	173
<i>David Shriver (University of Nebraska-Lincoln)</i>	
Poster: Automatic Detection of Inverse Operations while Avoiding Loop Unrolling .....	175
<i>Kunal Banerjee (Intel Labs), Ramanuj Chouksey (IIT Guwahati), Chandan Karfa (IIT Guwahati), and Pankaj Kumar Kalita (IIT Guwahati)</i>	
Poster: Efficiently Finding Minimal Failing Input in MapReduce Programs .....	177
<i>Muhammad Sohaib Ayub (Lahore University of Management Sciences) and Junaid Haroon Siddiqui (Lahore University of Management Sciences)</i>	
Poster: Forks Insight: Providing an Overview of GitHub Forks .....	179
<i>Luyao Ren (Peking University), Shurui Zhou (Carnegie Mellon University), and Christian Kästner (Carnegie Mellon University)</i>	

Poster: Use of Trace Link Types in Issue Tracking Systems .....	181
<i>Mihaela Todorova Tomova (Technische Universität Ilmenau), Michael Rath (Technische Universität Ilmenau), and Patrick Mäder (Technische Universität Ilmenau)</i>	
Poster: A Topic Analysis of the R Programming Language .....	183
<i>Abigail Atchison (Chapman University), Haley Anderson (Chapman University), Christina Berardi (Chapman University), Natalie Best (Chapman University), Cristiano Firmani (Chapman University), Rene German (Chapman University), and Erik Linstead (Chapman University)</i>	
Poster: Architecture Reconstruction and Evaluation of Blockchain Open Source Platform .....	185
<i>Jungho Kim (Korea Advanced Institute of Science and Technology), Sungwon Kang (Korea Advanced Institute of Science and Technology), Hwi Ahn (Korea Advanced Institute of Science and Technology), Changsup Keum (Electronics and Telecommunications Research Institute), and Chan-Gun Lee (Chung-Ang University)</i>	
Poster Agile Requirement Traceability Matrix .....	187
<i>Serin Jeong (Gyeongsang National University), Heetae Cho (Gyeongsang National University), and Seonah Lee (Gyeongsang National University)</i>	
Poster: Beyond Spatial and Temporal Memory Safety .....	189
<i>Zhe Chen (Nanjing University of Aeronautics and Astronautics), Chuanqi Tao (Nanjing University of Aeronautics and Astronautics), Zhiyi Zhang (Nanjing University of Aeronautics and Astronautics), and Zhibin Yang (Nanjing University of Aeronautics and Astronautics)</i>	
Poster: A Novel Shared Memory Framework for Distributed Deep Learning in High-Performance Computing Architecture .....	191
<i>Shinyoung Ahn (KAIST &amp; ETRI), Joongheon Kim (Chung-Ang Univ.), and Sungwon Kang (KAIST)</i>	
Poster: DWEN: Deep Word Embedding Network for Duplicate Bug Report Detection in Software Repositories .....	193
<i>Amar Budhiraja (Microsoft), Kartik Dutta (IIIT-Hyderabad), Raghu Reddy (IIIT-Hyderabad), and Manish Shrivastava (IIIT-Hyderabad)</i>	
Poster: Live Path Control Flow Integrity .....	195
<i>Mohamad Barbar (University of Technology Sydney), Yulei Sui (University of Technology Sydney), Hongyu Zhang (University of Newcastle), Shiping Chen (CSIRO/Data61), and Jingling Xue (University of New South Wales)</i>	
Poster: Using Repository Data for Driving Software Architecture .....	197
<i>Tobias Olsson (Linnaeus University), Morgan Ericsson (Linnaeus University), and Anna Wingkvist (Linnaeus University)</i>	
Poster: Analysis of Requirements Quality Evolution .....	199
<i>Eugenio Parra (Universidad Carlos III de Madrid), Jose Luis de la Vara (Universidad Carlos III de Madrid), and Luis Alonso (The REUSE Company)</i>	
Poster: Using Consensus to Automatically Infer Post-conditions .....	202
<i>Jingyi Su (Bowling Green State University), Mohd Arafat (Bowling Green State University), and Robert Dyer (Bowling Green State University)</i>	

Poster: Pairika—A Failure Diagnosis Benchmark for C++ Programs .....	204
<i>Md. Rezaur Rahman (Technical University of Munich), Mojdeh Golagha (Technical University of Munich), and Alexander Pretschner (Technical University of Munich)</i>	
Poster: Towards Safe Refactoring for Intelligent Parallelization of Java 8 Streams .....	206
<i>Yiming Tang (City University of New York), Raffi Khatchadourian (City University of New York), Mehdi Bagherzadeh (Oakland University), and Syed Ahmed (Oakland University)</i>	
Poster: Testing Web-Based Applications with the Voice Controlled Accessibility and Testing Tool (VCAT) .....	208
<i>Nagendra Prasad Kasaghatta Ramachandra (University of Texas at Arlington) and Christoph Csallner (University of Texas at Arlington)</i>	
Poster: Leveraging Product Relationships to Generate Candidate Bugs for Duplicate Bug Prediction .....	210
<i>Emily Su (Oracle Corporation) and Sameer Joshi (Oracle Corporation)</i>	
Poster: Protecting Remote Controlling Apps of Smart-Home-Oriented IOT Devices .....	212
<i>Eric Ruiz (University of Texas at San Antonio), Richard Avelar (University of Texas at San Antonio), and Xiaoyin Wang (University of Texas at San Antonio)</i>	
Poster: MC/DC Coverage-Oriented Compiler Optimization for Symbolic Execution .....	214
<i>Yijun Liu (National University of Defense Technology Changsha), Zhenbang Chen (National University of Defense Technology Changsha), Wei Dong (National University of Defense Technology Changsha), and Chendong Feng (National University of Defense Technology Changsha)</i>	
Poster: Introducing Quality Models Based on Joint Probabilities .....	216
<i>Maria Ulan (Linnaeus University), Welf Löwe (Linnaeus University), Morgan Ericsson (Linnaeus University), and Anna Wingkvist (Linnaeus University)</i>	
Poster: Program Repair that Learns from Mistakes .....	218
<i>Bat-Chen Rothenberg (Technion - Israel Institute of Technology) and Orna Grumberg (Technion - Israel Institute of Technology)</i>	
Poster: A Changeset-Based Approach to Assess Source Code Density and Developer Efficacy .....	220
<i>Sebastian Hönel (Linnaeus University), Morgan Ericsson (Linnaeus University), Welf Löwe (Linnaeus University), and Anna Wingkvist (Linnaeus University)</i>	
Poster: Discovering Requirements of Behaviour Change Software Systems from Negative User Experience ....	222
<i>Nelly Condori-Fernandez (Universidade da Coruña), Alejandro Catala Bolos (University of Twente), and Patricia Lago (Vrije Universiteit Amsterdam)</i>	
Poster: Understanding Newcomers Success in Open Source Community .....	224
<i>Shahab Bayati (The University of Auckland)</i>	
Poster: Swarming Remote Piloted Aircraft Systems for Mosquito-Borne Disease Research and Control .....	226
<i>Janet Wyngaard (University of Notre Dame), Samuel Rund (University of Notre Dame), Gregory Madey (University of Notre Dame), Michael Vierhauser (University of Notre Dame), and Jane Cleland-Huang (University of Notre Dame)</i>	

Poster: Ethics-Aware Software Engineering .....	228
<i>Fatma Basak Aydemir (Utrecht University) and Fabiano Dalpiaz (Utrecht University)</i>	
Poster: An Efficient Approach for Verifying Automobile Distributed Application Systems on Timing Property .....	230
<i>Haitao Zhang (Lanzhou University), Guoqiang Li (Shanghai Jiao Tong University), Xiaohong Li (Tianjin University), Zhuo Cheng (Jiangxi Normal University), Jinyun Xue (Jiangxi Normal University), and Shaoying Liu (Hosei University)</i>	
Poster: Adoption of the Visual Brainstorming Technique in the Open Source Software Development Process .....	232
<i>Lucrecia Llerena (Dpto. de Ingeniería Informática), Nancy Rodriguez (Dpto. de Ingeniería Informática), Pablo Gomez-Abajo (Dpto. de Ingeniería Informática), John W. Castro (Dpto. de Ingeniería Informática y Cs. de la Computación), and Silvia T. Acuña (Dpto. de Ingeniería Informática)</i>	
Poster: A General Framework to Detect Behavioral Design Patterns .....	234
<i>Cong Liu (Eindhoven University of Technology), Boudewijn van Dongen (Eindhoven University of Technology), Nour Assy (Eindhoven University of Technology), and Wil M.P van der Aalst (RWTH Aachen University)</i>	
Poster: Subsuming Mutation Operators .....	236
<i>Huan Lin (State Key Laboratory of Networking and Switching Technology), Yawen Wang (State Key Laboratory of Networking and Switching Technology), and Yunzhan Gong (State Key Laboratory of Networking and Switching Technology)</i>	
Poster: Detecting Missing Checks for Identifying Insufficient Attack Protections .....	238
<i>Lingyun Situ (Nanjing University), Liang Zou (Nanyang Technological University), Linzhang Wang (Nanjing University), Yang Liu (Nanyang Technological University), Bing Mao (Nanjing University), and Xuandong Li (Nanjing University)</i>	
Poster: How Do Community Smells Influence Code Smells? .....	240
<i>Fabio Palomba (University of Zurich), Damian A. Tamburri (Eindhoven University of Technology), Alexander Serebrenik (Eindhoven University of Technology), Andy Zaidman (Delft University of Technology), Francesca Arcelli Fontana (University of Milano-Bicocca), and Rocco Oliveto (University of Molise)</i>	
Poster: Communication in Open-Source Projects—End of the E-mail Era? .....	242
<i>Verena Käfer (University of Stuttgart), Daniel Graziotin (University of Stuttgart), Ivan Bogicevic (University of Stuttgart), Stefan Wagner (University of Stuttgart), and Jasmin Ramadani (University of Stuttgart)</i>	
Poster: Predicting Components for Issue Reports Using Deep Learning with Information Retrieval .....	244
<i>Morakot Choetkiertikul (University of Wollongong), Hoa Khanh Dam (University of Wollongong), Truyen Tran (Deakin University), Trang Pham (Deakin University), and Aditya Ghose (University of Wollongong)</i>	

Poster: An Experimental Analysis of Fault Detection Capabilities of Covering Array Constructors .....	246
<i>Rubing Huang (Jiangsu University), Yunan Zhou (Jiangsu University), Tsong Yueh Chen (Swinburne University of Technology), Dave Towey (University of Nottingham Ningbo China), and Jinfu Chen (Jiangsu University)</i>	
Poster: Are Information Retrieval-Based Bug Localization Techniques Trustworthy? .....	248
<i>Misoo Kim (Sungkyunkwan University) and Eunseok Lee (Sungkyunkwan University)</i>	
Poster: Accelerating Counterexample Detection in Software Model Checking .....	250
<i>Cong Tian (Xidian University), Zhao Duan (Xidian University), and Zhenhua Duan (Xidian University)</i>	
Poster: A Novel Variable-centric Fault Localization Technique .....	252
<i>Jeongho Kim (Sungkyunkwan University), Jindae Kim (HKUST), and Eunseok Lee (Sungkyunkwan University)</i>	
Poster: Android Inter-Component Communication Analysis with Intent Revision .....	254
<i>Cong Tian (Xidian University), Congli Xia (Xidian University), and Zhenhua Duan (Xidian University)</i>	
Poster: Exploration of Academic and Industrial Evidence about Architectural Tactics and Patterns in Microservices .....	256
<i>Felipe Osses (Universidad Tecnica Federico Santa Maria), Gastón Márquez (Universidad Tecnica Federico Santa Maria), and Hernán Astudillo (Universidad Tecnica Federico Santa Maria)</i>	
Poster: Automatically Solving NP-Complete Problems on a Quantum Computer .....	258
<i>Shaohan Hu (IBM Research), Peng Liu (IBM Research), Chun-Fu (Richard) Chen (IBM Research), and Marco Pistoia (IBM Research)</i>	
Poster: Guiding Developers to Make Informative Commenting Decisions in Source Code .....	260
<i>Yuan Huang (Sun Yat-sen University), Nan Jia (Hebei GEO University), Qiang Zhou (Sun Yat-sen University), Xiangping Chen (Sun Yat-sen University), Xiong Yingfei (Peking University), and Xiaonan Luo (Sun Yat-sen University)</i>	
Poster: Making Well-Informed Software Design Decisions .....	262
<i>Arman Shahbazian (University of Southern California), Youn Kyu Lee (University of Southern California), Yuriy Brun (University of Massachusetts Amherst), and Nenad Medvidovic (University of Southern California)</i>	
Poster: Runtime Verification of Memory Safety via Source Transformation .....	264
<i>Zhe Chen (Nanjing University of Aeronautics and Astronautics), Junqi Yan (Nanjing University of Aeronautics and Astronautics), Wenming Li (Nanjing University of Aeronautics and Astronautics), Ju Qian (Nanjing University of Aeronautics and Astronautics), and Zhiqiu Huang (Nanjing University of Aeronautics and Astronautics)</i>	
Poster: Synthesizing Relation-Aware Entity Transformation by Examples .....	266
<i>Jiarong Wu (Nanjing University), Yanyan Jiang (Nanjing University), Chang Xu (Nanjing University), Shing-Chi Cheung (Hong Kong University of Science and Technology), Xiaoxing Ma (Nanjing University), and Jian Lu (Nanjing University)</i>	

Poster: Testing Heap-Based Programs with Java StarFinder .....	268
<i>Long H. Pham (Singapore University of Technology and Design), Quang Loc Le (Teesside University), Quoc-Sang Phan (Fujitsu Labs. of America), Jun Sun (Singapore University of Technology and Design), and Shengchao Qin (Teesside University)</i>	
Poster: Automatically Answering API-Related Questions .....	270
<i>Di Wu (State Key Laboratory of Software Engineering), Xiao-Yuan Jing (State Key Laboratory of Software Engineering), Haowen Chen (State Key Laboratory of Software Engineering), Xiaoke Zhu (State Key Laboratory of Software Engineering), Hongyu Zhang (School of Electrical Engineering and Computing), Mei Zuo (State Key Laboratory of Software Engineering), Lu Zi (State Key Laboratory of Software Engineering), and Chen Zhu (State Key Laboratory of Software Engineering)</i>	
Poster: Exploring Uncertainty in GitHub OSS Projects: When and How Do Developers Face Uncertainty? .....	272
<i>Naoyasu Ubayashi (Kyushu University), Hokuto Muraoka (Kyushu University), Daiki Muramoto (Kyushu University), Yasutaka Kamei (Kyushu University), and Ryosuke Sato (Kyushu University)</i>	
Poster: Systematic Top-Down Design of Cyber-Physical Models with Integrated Validation and Formal Verification .....	274
<i>Christoph Luckeneder (TU Wien) and Hermann Kaindl (TU Wien)</i>	
Poster: On Vulnerability Evolution in Android Apps .....	276
<i>Jun Gao (University of Luxembourg), Li Li (Monash University), Pingfan Kong (University of Luxembourg), Tegawendé F. Bissyandé (University of Luxembourg), and Jacques Klein (University of Luxembourg)</i>	
Poster: UMLx: A UML Diagram Analytic Tool for Software Management Decisions .....	278
<i>Kan Qi (University of Southern California) and Barry Boehm (University of Southern California)</i>	
Poster: Unit Tests and Component Tests do Make a Difference on Fault Localisation Effectiveness .....	280
<i>Gulsher Laghari (Universiteit Antwerpen) and Serge Demeyer (Universiteit Antwerpen)</i>	
Poster: Recommending Exception Handling Patterns with ExAssist .....	282
<i>Tam Nguyen (Auburn University), Phong Vu (Auburn University), Hung Pham (University of Waterloo), and Tung Nguyen (Auburn University)</i>	
Poster: ALPACA-Advanced Linguistic Pattern and Concept Analysis Framework for Software Engineering Corpora .....	284
<i>Phong Vu (Auburn University), Tam Nguyen (Auburn University), Hung Pham (University of Waterloo), and Tung Nguyen (Auburn University)</i>	
Poster: Combining STPA and BDD for Safety Analysis and Verification in Agile Development .....	286
<i>Yang Wang (University of Stuttgart) and Stefan Wagner (University of Stuttgart)</i>	
Poster: Machine Learning Based Code Smell Detection Through WekaNose .....	288
<i>Umberto Azadi (Università degli Studi di Milano Bicocca), Francesca Arcelli Fontana (Università degli Studi di Milano Bicocca), and Marco Zanoni (Università degli Studi di Milano Bicocca)</i>	
Poster: Knowledge-Enriched Security and Privacy Threat Modeling .....	290
<i>Laurens Sion (KU Leuven), Koen Yskout (KU Leuven), Dimitri Van Landuyt (KU Leuven), and Wouter Joosen (KU Leuven)</i>	

Poster: CrossEcore: An Extendible Framework to Use Ecore and OCL Across Platforms .....	292
<i>Simon Schwichtenberg (Paderborn University), Ivan Jovanovikj (Paderborn University), Christian Gerth (Hochschule Osnabrück), and Gregor Engels (Paderborn University)</i>	
Poster: Semantically Enhanced Tag Recommendation for Software CQAs via Deep Learning .....	294
<i>Jian Zhang (Beihang University), Hailong Sun (Beihang University), Yanfei Tian (Beihang University), and Xudong Liu (Beihang University)</i>	
Poster: QoS-Aware Service Composition Using Blockchain-Based Smart Contracts .....	296
<i>Puwei Wang (University of China), Xiaohe Liu (University of China), Jinchuan Chen (University of China), Ying Zhan (Guizhou University of Finance and Economics), and Zhi Jin (Peking University)</i>	
Poster: An Automated and Instant Discovery of Concrete Repairs for Model Inconsistencies .....	298
<i>Roland Kretschmer (Johannes Kepler Universität Linz), Djamel Eddine Khelladi (Johannes Kepler University Linz), and Alexander Egyed (Johannes Kepler University Linz)</i>	
Poster: Knowledge Transfer from Research to Industry: A Survey on Program Comprehension .....	300

<i>Mohammadreza Ghanavati (Heidelberg University), Diego Costa (Heidelberg University), Artur Andrzejak (Heidelberg University), and Janos Seboek (Heidelberg University)</i>	
Poster: Hybrid Traversal: Efficient Source Code Analysis at Scale .....	412
<i>Ramanathan Ramu (Iowa State University), Ganesha Upadhyaya (Iowa State University), Hoan A Nguyen (Iowa State University), and Hridesh Rajan (Iowa State University)</i>	
Poster: Defect Prediction Metrics for Infrastructure as Code Scripts in DevOps .....	414
<i>Akond Rahman (North Carolina State University), Jonathan Stallings (North Carolina State University), and Laurie Williams (North Carolina State University)</i>	
Poster: Interlocking Safety Cases for Unmanned Autonomous Systems in Urban Environments .....	416
<i>Michael Vierhauser (University of Notre Dame), Sean Bayley (University of Notre Dame), Jinghui Cheng (Polytechnique de Montréal), Wandí Xiong (Iowa State University), Robyn Lutz (Iowa State University), Joshua Huseman (University of Notre Dame), and Jane Cleland-Huang (University of Notre Dame)</i>	
Poster: A Systematic Literature Review to Support the Selection of User Acceptance Testing Techniques .....	418
<i>Ernani César Dos Santos (Federal University of Santa Catarina), Patrícia Vilain (Federal University of Santa Catarina), and Douglas Hiura Longo (Federal University of Santa Catarina)</i>	
Poster: Assurance Cases for Scientific Computing Software .....	420
<i>Spencer Smith (McMaster University), Mojdeh Sayari Nejad (McMaster University), and Alan Wassying (McMaster University)</i>	
Poster: Grafter: Transplantation and Differential Testing for Clones .....	422
<i>Tianyi Zhang (University of California) and Miryung Kim (University of California)</i>	
Poster: Symbolic Path Cost Analysis for Side-Channel Detection .....	424
<i>Tegan Brennan (University of California Santa Barbara), Seemanta Saha (University of California Santa Barbara), and Tevfik Bultan (University of California Santa Barbara)</i>	
Poster: Identifying Security Issues in Software Development: Are Keywords Enough? .....	426
<i>Patrick Morrison (North Carolina State University), Tosin Daniel Oyetoyan (SINTEF Digital), and Laurie Williams (North Carolina State University)</i>	
Poster: Implementation and Evaluation of Cross Translation Unit Symbolic Execution for C Family Languages .....	428
<i>Gábor Horváth (Eötvös Loránd University), Péter Szécsi (Eötvös Loránd University), Zoltán Gera (Eötvös Loránd University), Dániel Krupp (Ericsson Ltd.), and Norbert Pataki (Eötvös Loránd University)</i>	

Poster: Path-Based Function Embeddings .....	430
<i>Daniel DeFreez (University of California), Aditya Thakur (University of California), and Cindy Rubio-González (University of California)</i>	
Poster: Multimorphic Testing .....	432
<i>Paul Temple (Univ Rennes), Mathieu Acher (Univ Rennes), and Jean-Marc Jézéquel (Univ Rennes)</i>	
Poster: Property Specification Patterns for Robotic Missions .....	434
<i>Claudio Menghi (Chalmers ), Christos Tsigkanos (Politecnico di Milano), Thorsten Berger (Chalmers ), Patrizio Pelliccione (Chalmers ), and Carlo Ghezzi (Politecnico di Milano)</i>	
Poster: Autotuning PostgreSQL: A Blueprint for Successful Autotuning of Real-World Applications .....	436
<i>Thomas Karcher (Karlsruhe Institute of Technology) and Mathias Landhäußer (thingsTHINKING GmbH)</i>	
Poster: Towards Multi-robot Applications Planning Under Uncertainty .....	438
<i>Claudio Menghi (Chalmers ), Sergio García (Chalmers ), Patrizio Pelliccione (Chalmers ), and Jana Tumova (KTH Royal Institute of Technology)</i>	
Poster: Companies' Domination in FLOSS Development - An Empirical Study of OpenStack .....	440
<i>Yuxia Zhang (Peking University), Xin Tan (Peking University), Minghui Zhou (Peking University), and Zhi Jin (Peking University)</i>	
Poster: Reordering Tests for Faster Test Suite Execution .....	442
<i>Panagiotis Stratis (University of Edinburgh) and Ajitha Rajan (University of Edinburgh)</i>	
Poster: Answering the Requirements Traceability Questions .....	444
<i>Arushi Gupta (University of Cincinnati), Wentao Wang (University of Cincinnati), Nan Niu (University of Cincinnati), and Juha Savolainen (Danfoss)</i>	
Poster: BugZoo – A Platform for Studying Software Bugs .....	446
<i>Christopher Steven Timperley (Carnegie Mellon University), Susan Stepney (University of York), and Claire Le Goues (Carnegie Mellon University)</i>	

## Doctoral Symposium

An Approach to Engineer and Realize Emergent Configurations in the Internet of Things .....	448
<i>Fahed Alkhabbas (Malmö University)</i>	
Effort-Oriented Methods and Tools for Software Development and Maintenance for Mobile Apps .....	450
<i>Gemma Catolino (University of Salerno)</i>	
Understanding and Improving Cyber-Physical System Models and Development Tools .....	452
<i>Shafiul Azam Chowdhury (The University of Texas at Arlington)</i>	
Effective Engineering of Multi-robot Software Applications .....	454
<i>Sergio García (University of Gothenburg)</i>	
Automated Migration Support for Software Product Line Co-evolution .....	456
<i>Lea Gerling (Stiftung Universität Hildesheim)</i>	

Constructing Supply Chains in Open Source Software .....	458
<i>Yuxing Ma (University of Tennessee)</i>	
The Relationship between Personality and Value-Based Decision-Making .....	460
<i>Fabiana Freitas Mendes (University of Oulu)</i>	
IoT-Based Urban Security Models .....	462
<i>Mahyar Tourchi Moghaddam (University of L'Aquila)</i>	
Assisted Discovery of Software Vulnerabilities .....	464
<i>Nathan Munaiah (Rochester Institute of Technology)</i>	
Automatic Verification of Time Behavior of Programs .....	468
<i>Giovanni Liva (Alpen-Adria Universität)</i>	
Learning to Accelerate Compiler Testing .....	472
<i>Junjie Chen (Peking University)</i>	
Characteristics of Defective Infrastructure as Code Scripts in DevOps .....	476
<i>Akond Rahman (North Carolina State University)</i>	
Fostering Software Developers' Productivity at Work Through Self-Monitoring and Goal-Setting .....	480
<i>André N. Meyer (University of Zurich)</i>	
Interactive Model Mining from Embedded Legacy Software .....	484
<i>Wasim Said (Robert Bosch GmbH)</i>	
Assessing Personalized Software Defect Predictors .....	488
<i>Beyza Eken (Istanbul Technical University)</i>	
Crowdsourced Software Development and Maintenance .....	492
<i>Bin Lin (Università della Svizzera italiana)</i>	
A Neuro-Cognitive Perspective of Program Comprehension .....	496
<i>Norman Peitek (Leibniz Institute for Neurobiology)</i>	

## ACM Student Research Competition

VarXplorer: Reasoning About Feature Interactions .....	500
<i>Larissa Rocha Soares (Federal University of Bahia)</i>	
Toward an Empirical Theory of Feedback-Driven Development .....	503
<i>Moritz Beller (Delft University of Technology)</i>	
Automatically Finding Bugs in Commercial Cyber-Physical System Development Tool Chains .....	506
<i>Shafiul Azam Chowdhury (The University of Texas at Arlington)</i>	
Interactive and Automated Debugging for Big Data Analytics .....	509
<i>Muhammad Ali Gulzar (University of California)</i>	
Deadlock Detector and Solver (DDS) .....	512
<i>Eman Aldakheel (University of Illinois at Chicago)</i>	
AutoModel: A Domain-Specific Language for Automatic Modeling of Real-Time Embedded Systems .....	515
<i>Nafiseh Kahani (Queen's University Kingston)</i>	
When to Extract Features: Towards a Recommender System .....	518
<i>Jacob Krüger (Otto-von-Guericke University Magdeburg &amp; Harz University of Applied Sciences Wernigerode)</i>	

Compiler-Assisted Test Acceleration Using GPUs .....	521
<i>Vanya Yaneva (University of Edinburgh)</i>	
Adding Sparkle to Social Coding: An Empirical Study of Repository Badges in the npm Ecosystem .....	524
<i>Asher Trockman (University of Evansville)</i>	
Combining Symbolic Execution and Model Checking to Verify MPI Programs .....	527
<i>Hengbiao Yu (National University of Defense Technology)</i>	

## Technical Briefings

### Session I

Automatic Software Summarization: The State of the Art .....	530
<i>Laura Moreno (Colorado State University) and Andrian Marcus (The University of Texas at Dallas)</i>	
Strategy for Continuous Testing in iDevOps .....	532
<i>Peter Zimmerer (Siemens AG)</i>	
Analyzing Software Engineering Experiments: Everything You Always Wanted to Know but Were Afraid to Ask .....	534
<i>Sira Vegas (Universidad Politecnica de Madrid)</i>	

### Session II

Natural Language Requirements Processing: From Research to Practice .....	536
<i>Alessio Ferrari (CNR-ISTI)</i>	
Metamorphic Testing 20 Years Later: A Hands-on Introduction .....	538
<i>Sergio Segura (University of Seville) and Zhi Quan Zhou (University of Wollongong)</i>	
How to Analyze Git Repositories with Command Line Tools: We're not in Kansas Anymore .....	540
<i>Diomidis Spinellis (Athens University of Economics and Business) and Georgios Gousios (Delft University of Technology)</i>	

### Session III

Big Data Software Analytics with Apache Spark .....	542
<i>Georgios Gousios (Delft University of Technology)</i>	
Demystifying Cyber-Physical Malware .....	544
<i>Suraj Kothari (Iowa State University)</i>	
Detecting and Managing Code Smells: Research and Practice .....	546
<i>Tushar Sharma (Athens University of Economics and Business)</i>	

## Session IV

Machine Learning for Software Engineering: Models, Methods, and Applications .....	548
<i>Karl Meinke (KTH Royal Institute of Technology) and Amel Bennaceur (The Open University)</i>	
State of the Systems Security .....	550
<i>Eric Bodden (Heinz Nixdorf Institute at Paderborn University &amp; Fraunhofer Institute for Mechatronic Systems Design (IEM))</i>	
Multi-platform Computing for Physical Devices via MakeCode and CODAL .....	552
<i>Thomas Ball (Microsoft Research), Judith Bishop (Stellenbosch University), and Joe Finney (Lancaster University)</i>	
<b>Author Index</b> .....	<b>555</b>
