

# 2018 ACM/IEEE 1st International Workshop on Robotics Software Engineering **RoSE 2018**

## Table of Contents

Message from the ICSE 2018 General Chair .....	vii
Message from the RoSE 2018 Co-Organizers .....	x
Program Committee for RoSE 2018 .....	xii
ICSE 2018 Sponsors and Supporters .....	xiv

### Session 1

Checking Consistency of Robot Software Architectures in ROS .....	1
<i>Thomas Witte (Ulm University) and Matthias Tichy (Ulm University)</i>	
A Use Case in Model-Based Robot Development Using AADL and ROS .....	9
<i>Gianluca Bardaro (Politecnico di Milano), Andrea Semperebon (Politecnico di Milano), and Matteo Matteucci (Politecnico di Milano)</i>	
On the Software Engineering Challenges of Applying Reactive Synthesis to Robotics .....	17
<i>Shahar Maoz (Tel Aviv University) and Jan Oliver Ringert (Tel Aviv University)</i>	
Using Physical Quantities in Robot Software Models .....	23
<i>Loli Burgueño (Universidad de Málaga), Tanja Mayerhofer (Technische Universität Wien), Manuel Wimmer (Technische Universität Wien), and Antonio Vallecillo (Universidad de Málaga)</i>	

### Session 2

Industrial-Scale Environments with Bounded Uncertainty: A Productivity Maximisation Challenge .....	29
<i>Daniel Sykes (Ocado Technology) and Gavin Keighren (Ocado Technology)</i>	
Designing Control Software for Robot Swarms: Software Engineering for the Development of Automatic Design Methods .....	33
<i>Darko Bozhinoski (Université Libre de Bruxelles) and Mauro Birattari (Université Libre de Bruxelles)</i>	
Engineering Safety in Swarm Robotics .....	36
<i>Giovanni Beltrame (Polytechnique Montreal), Ettore Merlo (Polytechnique Montreal), Jacopo Panerati (Polytechnique Montreal), and Carlo Pinciroli (Worcester Polytechnic Institute)</i>	

Toward Code-Aware Robotic Simulation .....	40
<i>John-Paul Ore (University of Nebraska-Lincoln), Carrick Detweiler</i> <i>(University of Nebraska-Lincoln), and Sebastian Elbaum (University of</i> <i>Nebraska-Lincoln)</i>	
Toward Rapid Composition with Confidence in Robotics Software .....	44
<i>Neil A. Ernst (University of Victoria), Rick Kazman (University of</i> <i>Hawaii), and Philip Bianco (Carnegie Mellon University Software</i> <i>Engineering Institute)</i>	
<b>Author Index</b> .....	<b>49</b>
