

2018 ACM/IEEE 3rd International Workshop on Emotion Awareness in Software Engineering **SEmotion 2018**

Table of Contents

Message from the ICSE 2018 General Chair	vii
Welcome from the SEmotion 2018 Chairs	x
Organizing Committee for SEmotion 2018	xi
Program Committee for SEmotion 2018	xii
Abstract for SEmotion 2018	xiv
ICSE 2018 Sponsors and Supporters	xv

Sentiment Analysis in Open Source

The Evolution of Emotional Displays in Open Source Software Development Teams: An Individual Growth Curve Analysis	1
<i>Karl Werder (University of Duisburg-Essen)</i>	
Entity-Level Sentiment Analysis of Issue Comments	7
<i>Jin Ding (Beihang University), Hailong Sun (Beihang University), Xu Wang (Beihang University), and Xudong Liu (Beihang University)</i>	
On Measuring Affects of GitHub Issues' Commenters	14
<i>Giuseppe Destefanis (University of Hertfordshire), Marco Ortu (University of Cagliari), David Bowes (University of Hertfordshire), Michele Marchesi (University of Cagliari), and Roberto Tonelli (University of Cagliari)</i>	
MEME - Toward a Method for EMotions Extraction from GitHub	20
<i>Karl Werder (University of Duisburg-Essen) and Sjaak Brinkkemper (Utrecht University)</i>	

Applications of Sentiment and Emotion Analyses

Making Meeting Success Measurable by Participants' Feedback	25
<i>Nils Prenner (Leibniz Universität Hannover), Jil Klünder (Leibniz Universität Hannover), and Kurt Schneider (Leibniz Universität Hannover)</i>	
Contextualizing Inferred Programming Difficulties	32
<i>Jason Carter (Cisco Systems) and Prasun Dewan (University of North Carolina)</i>	

Daily Questionnaire to Assess Self-Reported Well-Being during a Software Development Project	39
<i>Miikka Kuuttila (University of Oulu), Mika Mäntylä (University of Oulu), Maëlick Claes (University of Oulu), and Marko Elovainio (University of Helsinki)</i>	
Effects of Automated Competency Evaluation on Software Engineers' Emotions and Motivation: A Case Study	44
<i>Gul Calikli (Chalmers-University of Gothenburg), Mohammed Al-Eryani (Volvo Car Retail Solutions AB), Emil Baldebo (Volvo Car Retail Solutions AB), Jennifer Horkoff (Chalmers-University of Gothenburg), and Alexander Ask (Sigma IT Consulting)</i>	

Sentiment Analysis Methodology

Sensing Developers' Emotions: The Design of a Replicated Experiment	51
<i>Daniela Girardi (University of Bari Aldo Moro), Filippo Lanubile (University of Bari Aldo Moro), Nicole Novielli (University of Bari Aldo Moro), and Davide Fucci (University of Hamburg)</i>	
Sentiment and Politeness Analysis Tools on Developer Discussions Are Unreliable, but So Are People	55
<i>Nasif Imtiaz (North Carolina State University), Justin Middleton (North Carolina State University), Peter Girouard (North Carolina State University), and Emerson Murphy-Hill (North Carolina State University)</i>	
Author Index	63
