Message from Co-located Events Chair of ICSE 2018

Welcome to ICSE 2018 and its fantastic line-up of co-located events. This year, ICSE features eight co-located conferences and symposia. These events allow participants to discuss current topics in software engineering research and practice and often attract 100+ attendees. Some events grew out of highly successful ICSE workshops, while other events have been independent conferences that decided to co-locate with ICSE to reduce the travel burden of its attendees.

ICSE 2018 is proud to host the following events, sponsored by IEEE TCSE and ACM SIGSOFT.

- **FormaliSE 2018:** 6th Conference on Formal Methods in Software Engineering
- **ICGSE 2018:** 13th IEEE International Conference on Global Software Engineering
- **ICPC 2018:** 26th IEEE International Conference on Program Comprehension
- **MobileSoft 2018:** 5th IEEE/ACM International Conference on Mobile Software Engineering and Systems
- **MSR 2018:** 15th International Conference on Mining Software Repositories
- **SEAMS 2018:** 13th International Symposium on Software Engineering for Adaptive and Self-Managing Systems
- **SEiA 2018:** Symposium on Software Engineering in Africa
- **TechDebt 2018:** International Conference on Technical Debt

In addition, ICSE is proud to host the following event, sponsored by the International Software and Systems Process Association (ISSPA).

- **ICSSP 2018:** International Conference on Software and System Processes

I hope that you will enjoy the co-located events program and that you will have fruitful discussions with attendees that will inspire you. Have a fantastic time in Gothenburg!

Thomas Zimmermann, Co-located events Chair
